## Water-bath Gelatin Melting Tank

### Description

The tank designing or manufacture is in accordance with GMP requirements of health standards, according to GB9684-88 "stainless steel food containers health standards". According to Q/WRJ01-2002 the gelatin capsule of medicine tank (container, barrel) etc. It use three layers, which is inner heating jacket, insulation jacket, as a while refining by the SUS 304 stainless steel. It have some advantages as gelatin melting fast, strong constant temperature, vacuum stable, smooth operation, within the outer wall is smooth, no dead ends cleaning and maintenance convenient, stable glue homogeneous degree, safe and convenient operation, easy cleaning

Technical Parameters	GMV-DL-450	GMV-DL-600	GMV-DL-800	GMV-DL-1000
Melting Volume(L)	100-450	150-600	200-800	300-1000
Volume(L)	650	900	1100	1300
Heating area(m2)	3.2	4	4.8	5.5
Vacuum degree(mpa)	Less than 0.09	Less than 0.09	Less than 0.09	Less than 0.09
Temperature	Less than 100	Less than 100	Less than 100	Less than 100
Power(kw)	4	5.5	7.5	7.5
Mix speed(rmp)	51	51	51	51
Weight	1300	1400	1500	1600
Dimension	1200*2200	1300*2200	1400*2200	1500*2200
