

ProCap II

Capsule Filling Machine

Capsule Filling Machine

The **ProCap II** Capsule Filling Machine is primarily designed for R & D with an output up to 3,600 capsules per hour with a fully automatic control system and user-friendly touch screen HMI.

ProCap II

Features:

- Output: up to 3,600 capsules/hour
- Contact parts made of 316L stainless steel
- With powder and pellet filling facilities
- PLC control,HMI operation
- Alarm for door open
- Capacity preset
- Production volume display
- Rejected volume display
- Error alarm for electric control system
- Error alarm for vacuum system
- Alarm for continuous capsules rejection
- Windows safety alarm
- cGMP compliant

Technical Data	ProCap II
Application range	Capsule sizes:000# 00# 0# 1# 2# 3# 4# 5# A# B# C# D# E#
Max. output	3,600 Capsules/ h
Power Supply	220V 50Hz/60Hz 110V 60Hz 0.5kw
Air Compression	0.1 m3/min 0.05MPa
Vacuum	2m3/min -0.1MPa
Noise	<70dB
Dimension	605×605×1000mm
Weight	150kg
