MST Medicine Service Tank

Medicine Service Tank

Barrels designing or manufacture is in accordance with GMP requirements of health standards. It uses three layers, which is inner, heating jacket, insulation jacket, as a whole refining by the SUS304 stainless steel. Using electric heating, intelligent temperature controller. Pressure gauge, regulator, security valve, sight glass, etc. were installed on the top of barrel. A drain valve was set in the bottom. Lid locking is the way of quick clamp. The barrel has advantages of thermal insulation, stable liquid conveying, preventing the liquid layer and precipitation, safe and convenient operation, easy cleaning and so on.

Model	MST-100	MST-150	MST-200
Volume	100L	150L	200L
Temperature	< 100°C	< 100°C	< 100°C
Pressure	< 0.05Mpa	< 0.05Mpa	< 0.05Mpa
Power supply	220V/60HZ 1.5KW	220V/60HZ 1.5KW	220V/60HZ 2KW
Dimension	Φ550x1210 mm	Φ600x1330 mm	Φ700x1330 mm

SaintyCo also offer:

Encapsulation Solutions

Tablet Compression Solutions

Coating Systems

Cartoning Systems

Blister Packing Solutions
