

SQY SERIES

SUGAR COATING MACHINE

Sugar Coating Machine

The tablet coating machine is widely used for making tablets, sugar-coat pills, polishing and rolling food demanded by the pharmacy industry, chemical industry, foods, research institutes and hospitals. The sugar-coat tablets that are polished possess a bright appearance. The intact solidified coat formed after the surface sugar's crystallization can prevent the chip from oxidative deterioration, damping and volatilization, and cover the improper flavor of the chip.

Able to be matched with frequency controller. Able to be matched with dust-removal system. It can be made to totally-enclosed type, served with airbrush system, and meets the GMP requirements.

SQY-300

SQY-400

SQY-600

SQY-800

SQY-1000

SQY-1250

Features:

- It is widely used in the pharmaceutical, nutritional and food industries for coating tablets or pills.
- A built-in heater is provided with the machine.
- The pipe of the blower stretches into pot for an evenly heating distribution while the coating pan is rotating.
- Adjustable coating pan and LED display.
- Adjustable blower temperature and LED display.
- Option adopted spray gun system for film coating processing.
- Small unit, 110V powder supply, simple set-up and easy to operate.
- All stainless steel 316 construction to meet the GMP standard.
- It's easy to operate, clean, excellent performance and simple maintenance.

Technical Data	SQY-300	SQY-400	SQY-600	SQY-800	SQY-1000	SQY-1250
Capacity	1-3kg/cycle	2-5kg/cycle	8~15kg/cycle	30~50kg/cycle	50-70kg/cycle	80-150kg/cycle
Pot inclination	42°	42°	30°	30°	30°	30°
Motor Power	0.37kw	0.37Kw	0.75Kw	1.1Kw	1.5Kw	2.2Kw
Blower Power	60W	60W	100W	200W	200W	370W
Pot Volume	1L	1L	5L	8L	10L	20L
Heating Power	1.4Kw	1.4Kw	2Kw	3Kw	4Kw	6Kw
Weight	49Kg	50Kg	150Kg	280Kg	300Kg	500Kg
Rotational Speed	0-46r/min	0-46r/min	0-40r/min	0-32r/min	0-32r/min	0-28r/min
